

G3 Cash Contracts

Basis Contract

- Fix the basis price on your grain. Later, lock in the futures.
- An opportunity to earn \$5 per tonne of trust units in the Farmers Equity Trust.

How does it work?

You can fix a basis price and delivery month. Basis prices can be locked in until the end of the delivery month, but must be locked in prior to delivery. Basis prices can be withdrawn at any time and without notice.

Your delivery month must align to the associated futures month. You can roll your basis until the futures price is locked in.

Note: When the futures month expires, the nearby cash price (spot basis) for immediate delivery will be priced off the next available futures month.

Where do I find prices?

Contact your local G3 grain elevator for a price quote.

Price lock-in

Obtain a real-time price quote by contacting your local G3 grain elevator.

Can I set a target price?

Through G3, you can set a futures or basis target price using real-time pricing. If the target price is reached during the daily pricing period, then the value will be locked in. Target pricing requests must be received by your G3 grain elevator by closing in order to receive next day target pricing.

How do I get paid?

You will be paid at the time of delivery, provided your contract is fully priced (both the futures and basis values are locked in).

Net payment = Futures +/- G3 basis

How do I deliver?

Contact your local G3 grain elevator to work out a delivery schedule. Visit www.g3.ca/network to find the G3 facility closest to you.

How do I sign-up?

Contact your local G3 grain elevator.
